January 17, 5:15 PM
Main Conference Room

I. Call to Order

II. Roll Call

III. Approval of Minutes

Motion to approve last week's minutes: Sophia

Second: Kat

IV. Moment of Silence

UCI student passing away due to alleged fraternity activities

Government is still shut down

V. Public Input

- Patty Mahaffey, Assistant Vice Chancellor of Student Life
 - Former Dean of Student Affairs of Muir College
 - Been on campus since 1995
 - At Muir college for 22 years then moved to AVC position a year and a half ago
 - Oversee:
 - Center for student involvement: Greek life, student orgs, TAP
 - University Centers
 - Student legal services
 - ArchPower
 - Associated Students
 - Graduate Student Association
 - University Events Office
 - Basic Needs
 - Fun fact: executive producer of Muir Musical
- Alysson M. Satterlund, Vice Chancellor of Student Affairs
 - New to campus: starting November 1
 - Have oversight over all student services of campus
 - Student services, student fees, things that are important to your student experience
 - Part of what I am hoping to do is getting to know campus, meeting students; be very attuned to what student needs and expectations are
 - Formerly was at CSU San Bernardino
 - 24th year professional year in student affairs
 - First generation student at CSU

- Earned doctorate at Chapel Hill in North Carolina
- Kept thinking I was going to do something else besides student affairs/services, but finally succumbed to it.
- Wanted to open up to hear from you all what you think would be essential to student

Motion to open five minute discussion on student life on Sixth College: Sophia
Second: Hetsvi

- **Andy:** The problem I see with CAPs, there isn't enough there for the students. Sometimes it takes up to one to two months to actually get a meeting, unless you have a referral. If you could do anything to help with mental health. Maybe workshops?
 - UCOP recently affirmed "1 psychiatrist for every 1000 students" as an expectation
 - I understand that wait time has been reduced to two weeks from student feedback
 - Can look into peer support models
 - If you would really benefit from having additional support from a peer who has training from advancing your mental wellbeing - this is one way to make sure our staff ratio is adequate
- **Patty:** Your AS president has launched peer program related to mental wellbeing. They are in process of hiring and training students. UCLA has robust program that works really well, we are hoping to grow that and make that a program here in UC San Diego. We are in active communication in wondering how we can do that.
- **Justin:** Discontinuing student advisory position - that seemed to raise a lot of concern.
 - Patty: Will find out more about it and circle it back to Andy.
- **Andy:** There is a lot of construction in Sixth - just wanted to make sure students are safe. There are almost some parts you are walking where it is almost pitch black. Also, making sure that construction workers are abiding to the hours that they should be working.
- **Justin:** Transfer Lounge?
 - **Patty:** There are a folks across campus that are talking about Transfer Lounge - I'll make sure we talk about this. Fun fact: we just opened a Commuter Refrigerator area over where back of the arcade is. It's a coat check system - you can drop off your lunch and leave it in the fridge
 - **Alison:** Also looking into adding nap pods in Recreation and Wellness Center.
- **Sophia:** What other things are you planning on implementing?
 - **Alison:** I haven't been here very long so one thing is you don't want to assume what works at another campus will work here. We'll be working on a couple of things:
 - Transfer student experience
 - Commuter student experience
 - Health and wellness (across country as well)
 - 68 construction projects
 - 2 more cranes will be coming to Sixth
 - Exciting but requires so much communication: thinking about safety issues. How will we get students to be a part of this transformation even if they won't be able to experience the new Seventh College?
 - Joy and happiness

- We underestimate the power of fun in terms of social support, reducing stress, creating connection between you and your university.
- Trying to make sure people can have more fun in healthy and safe ways.
- **Emma:** I know people who are reluctant to reach out to CAPs or other wellness services. We could have smaller workshops just within different colleges quite frequently to help convince students to start reaching out
 - Alison: Reasonable idea. There might already be workshops that I'm not aware about. I'll figure out more about it, relay the information back to Diane. I'll circle back with what is available.
- **Sophia:** A lot of students were placed in overflow housing more so than ever before. A lot of the first years that I have spoken to feel disconnected from their college because they don't have that sense of belonging to their college.
 - We need to find housing for incoming students even if there is the issue of not feeling connected to college. How can we take advantage of outside space, good weather,
 - Patty: We are doing same thing for University Centers: outside Tapex is
- **Contact:** asatterlund@ucsd.edu
