1) Voter Registration Day

*Submitted by Pieter, a member of CALPIRG - [Link to report here](#)*

Topics covered in report:

- Asking college councils to reserve tabling locations
- Calpirg hosting a visibility session: Oct. 19
- Tabling to register students to vote: Oct. 22, 10am-3pm

**Questions**

**Jesse:** Why should we care about registering to vote?

**Pieter:** Young people are one of lowest percentages for voting demographics. Most voters across the country are over the age of 30. In order to do things we care about, we need to voice our opinion - the first step to doing that is registering to vote. A lot of students show up to polling stations but don't realize that their address is wrong. We are mainly making sure their addresses are up to date, not necessarily registering vote. If they have another address listed that is not their San Diego address, they will not be able to vote.

**Anthony:** When are midterm elections?

**Pieter:** November 6

**Andy:** Now that we're all 18 and up, we should all be using our right to vote. (yielding time to Jesse)

**Jesse:** Voting is a really big deal. Fall of my freshman year was when President Obama was elected - it was an exciting time. As the volunteer sheet is going around, think about giving a little of your time. It is impactful to be a part of history.

## 2) Introduction to SCSC Meetings

*Submitted by Vice President Internal Justin Gamiao - [Link to presentation here](#)*

Topics covered in presentation:

- Justin/VP Internal introduction

  - Quorum: 50% of voting members + 1
    - Finance Meeting needs 2 voting members, 2 non-voting members
- Straw polls
  - Vote for, against, or abstain
  - Everyone can vote and speak.

### Questions

**Anthony:** What's the difference between tabling and postponing?

**Justin:** Table = next meeting, postpone = indefinite.

### **Questions**

**Andy:** When is this?

**Sharmistha:** Probably Friday, Nov. 16, 4:30pm - 6:30pm in MCR, so that people will be able to park in Gilman

**Andy:** Are you going to require volunteers for this event?

**Sharmistha:** We don't need much volunteers besides the photographers and the hairdresser. This is technically for fourth years, but definitely come by if you

want

head shots.

**Elisha:** Will people dress up?

**Sharmistha:** Elaine and I were talking about this. We will most likely mail them telling them to wear something nice.

**Michelle N.:** Is there somewhere you can sign up?

**Sharmistha:** There will be. It is still early in planning stages.

- Crystal Tsui, Third Year Senator
- Vacant, Second Year Senator

- Tommy Jung, First Year Senator
  - a. Already talked to some RAs about having email made for first year senator.
    - a. [scscfys@gmail.com](mailto:scscfys@gmail.com)
    - b. Plan to get that posted on newsletters, so students have access to contacting me as their first year senator.
  - b. Throwing idea out: wanted to run some sort of survey with maybe a raffle
    - a. Don't want people to just have my email, but actually have people contact me.
  - c. What are the medical amnesty posters posted around apartments/res halls?
    - a. Issues is that poster is just in big letters: rest of information is hard to read.

**Sophia (point of information):** Before it was called Responsible Action Protocol. They are changing the name, changing the theme of the idea. They're in process of coming up with brochure, printing it out, and having more information. As soon as we have that, we will give it out to RAs to hand out to their residents.

**Michelle M. (point of information):** Medical Amnesty Program (MAP) is an initiative of the Office of Student Conduct. Doing it to encourage students to not only report their friends, but themselves, when medical attention is needed, when they overused some time of substance (alcohol is main thing). Many times, students are too drunk and are unresponsive, but are afraid to call RA for help.

MAP protocol - if they "map" you, you won't have to go through the Office of Student Conduct. You will have to meet with pro staff and go through some sort of educational session. You can be MAPed once in a two-year span, but can map other students unlimited times.

**Jamshed:** The person who maps others, they will not get in trouble?

**Michelle:** No.

**Sophia (point of information):** If there is some other policy violation, that will be taken care of. Remember, the main concern here is to make sure the person is okay, so I recommend that you call anyway. It is better to safe than sorry - you do not want your friend to die.

**Rachel (point of information):** A good way to remember it: MAP is for the person who needs. Another way to think of it is "Medical Attention Please"

- d. Will come back next week with more ideas more fleshed out
- e. Senator meetings next week?
  - a. **Andy:** Yes. If not with everyone, we can do one-on-ones.

**Anthony (point of information):** Setup for that event is 2:30pm, clean up is until 8pm. If you're free to help during those times, please come out.

  - Currently working on planning of fate of Semi-Formal...
  - Next week will try to do a little report and get some feedback.
    - If you all can start thinking about things you want to see, change, or even small ideas you may have - I will have an easy straw poll, so think about it.
