

## Conference Funding Support

Sixth College encourages students to be actively engaged in research as well as creative and artistic forms of expression. This especially includes presentation at conferences of artistic or other projects and research papers either alone or jointly with other students or faculty mentors.

For 2017-18, Sixth College has up to \$3,000 to distribute in support of student participation in conferences. Sixth College students can apply for up to \$250 in funding support per student. These funds must be used to subsidize travel and registration expenses associated with attending conferences.

Sixth College students from all majors are eligible to apply. U.S. citizenship is not a requirement. Conferences do not need to be in a student's major field but must be connected to a student's academic experience.

Applications must be submitted prior to the conference. They may be emailed to [sixthprovost@ucsd.edu](mailto:sixthprovost@ucsd.edu) or submitted in writing to the Sixth College Provost's Office which will review the submissions. The applicant must secure a brief letter of support from a UCSD faculty sponsor who should separately email the letter to [sixthprovost@ucsd.edu](mailto:sixthprovost@ucsd.edu).

Funding will be awarded as reimbursement; receipts must be submitted to the Sixth College Provost's Office after the applicant attends the conference.
